# WELCOME LETTER

In the name of the International Geodetic Student Organisation (IGSO), we invite you to attend the XXXV edition of the International Geodetic Student Meeting in Valencia.

In June 2023, students and alumni from 'Escuela Técnica Superior de Ingeniería Geodésica, Cartográfica y Topográfica (ETSIGCT)' of the Polytechnic University of Valencia (UPV) are planning an international convention in the heart of Valencia to become the joint platform which unites all students and alumni from all over the world who are active in various fields of geodesy.

IGSM's primary purpose is the thematic exchange between active and old students. Activities such as presentations, diverse talks, round tables, poster sessions, and workshops surely will provide a delightful multidisciplinary experience for all assistants, not only in a professional way but also by creating meaningful and robust connections that will arouse great possibilities and future advantages. Registered people will have the chance to present their work and research through oral communication or posters.

This program lets our visitors enjoy and discover this wonderful city's cuisine, landscape, and culture through several excursions and social activities. Some of these bring together a tremendous cultural exchange, sharing customs, cooking and traditions from various countries. It's impossible to ignore the fact that this meeting has been held annually since 1988 in different countries and the practices originated around it.

In 2018 this event was already held in Valencia, becoming genuinely successful and receiving outstanding reviews from its participants. This delightful response and motivation led the organisation to repeat it in 2023. Nevertheless, all this recognition came thanks to the substantial founding of the school and university, all donations and sponsors.

A great team of current and former students motivated by these achievements is wholly involved in this year's meeting planning. At this point, a great network of sponsors is required.

We are looking forward to seeing you all in Valencia.

Warm regards,  
The Organisation Committee.

# GENERAL INFORMATION

## What are geomatics?

Geomatics engineering is a cross-disciplinary discipline, i.e. a person who has studied Geomatics Engineering has a wide range of possibilities to apply his or her knowledge and skills in a variety of fields.

Geomatics is multidisciplinary by nature. Surveying and mapping, remote sensing, photogrammetry, geodesy, geographic information systems (GIS) and global positioning systems (GNSS and GPS) make up Geomatics and these disciplines, in turn, extend to a wide variety of fields and technologies, including digital geometry, computer graphics, digital image processing, virtual reality, augmented reality, 3D modelling, digital twin, CAD, database management systems, software development, spatio-temporal statistics, artificial intelligence and Internet technologies, among others.

# GENERAL INFORMATION

## Historic context

The first International Geodetic Student Meeting (IGSM) was held in The Netherlands and organised by geodesy students from the Delft University of Technology. Four years later, in Graz (Austria), the International Geodetic Student Organisation (IGSO) was created. Since 1988, the IGSO has mapped out an International Geodetic Student Meeting each year in a different country. These meetings allow students to exchange experiences about geodesy and get to know other places' customs and cultures.

# GENERAL INFORMATION

## IGSO

The International Geodetic Student Organisation (IGSO) is an international association, independent, apolitical, non-profit run for and by geodesy students and young geodesists. The principal objectives of this organisation are:

- Join all geodetic student associations from all over the world.
- Publicly represent geodesy students.
- Coordinate relationships between member organisations.
- Establish and strengthen cooperation with different authorities.

IGSO's members are university associations that represent geodesy students. Right now, it is made up of 93 universities and schools from 34 different countries, and these numbers are continuously growing.

### **Dates of the event:**

2 - 8 July 2023

### **Preliminary programme:**

The preliminary programme is defined below, this programme may vary.

### **Official website of the event:**

[www.igsm2023.com](http://www.igsm2023.com)

### **Expected attendance:**

180 people

# PRELIMINARY PROGRAMME

Day 1	Day 2	Day 3	Day 4	Day 5	Day 6	Day 7

# ORGANISING TEAM

# FUNDS

Students who want to join us in 2023 will pay a registration fee of 120 €, and alumni who would like to come have to pay 220 € as an inscription fee. Such inscription deposit covers the whole programme for the entire week, including full board, accommodation and the right to participate in all celebrated activities.

Since it is a complex economic situation, our team will face several challenges to organise the 2023 IGSM edition with an adequate programme and the quality deserved for such an event. Thus, we truly appreciate every single effort or support we receive.

There are diverse ways of being involved in the 2023 IGSM in Valencia. We give the opportunity to obtain a sponsor package or support the event with donations. Additionally, we offer the chance to create individual sponsor packages that adapt better to your possibilities.

# SPONSORS

	DIAMOND 5.000 €	PLATINUM 3.000 €	GOLD 2.000 €	SILVER 1.000 €	BRONZE 500 €
Advertising pages within the digital booklet	4	3	2	1	1/2

Streaming during talk	✓	✓	×	×	×
Organisation of workshops	✓	×	×	×	×

We offer 5 graduated packages with different services, depending on the support provided. Independently of these packages we offer the opportunity to tailor a package to suit the possibilities of your company. Among those possibilities would be the negotiation of a stand placement.

A contract will be signed for your sponsorship, in which the specified conditions will be established.

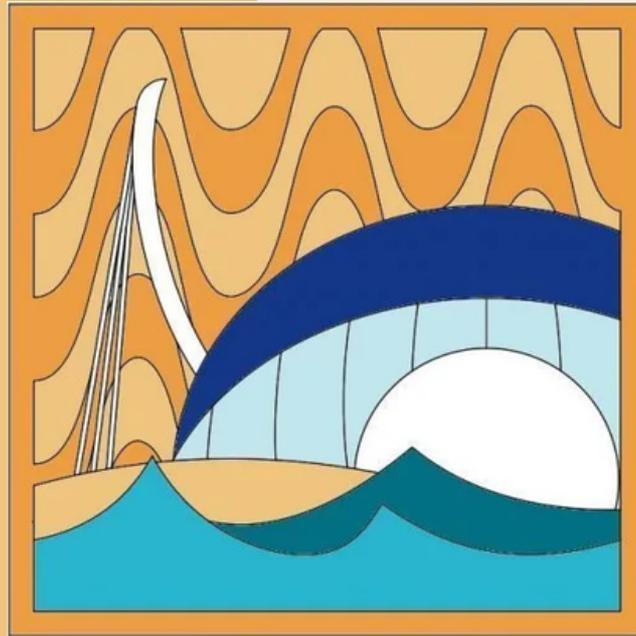

# SPONSORS

- **Flyer in the welcome bag:** Each participant gets a welcome bag in which advertising can be added as a leaflet or promotional gift.
- **Workshops organisation:** Several workshops will be held during the week. Sponsors have the chance to perform one of these.
- **Advertisement pages offered inside the digital leaflet:** An information leaflet on the official website will show all event details. At the same time, information pages from various sponsors will be presented according to the sponsorship level.
- **Social media presence:** Several social media interactions will be made throughout the meeting. Visibility in these will depend on the sponsorship level.
- **Logo on the website and digital leaflet:** The name and logo of the company will appear in the sponsorship sections based on the acquired package.
- **Logo on staff T-shirts:** The organising team will wear T-shirts with the sponsor's logos on the back in proportion to the received package.
- **Open ceremony invitation:** Invitation to the open ceremony.
- **Poster at the open ceremony:** Appearance of posters included.
- **Logo on participants' T-shirts:** The participants will wear T-shirts with the sponsor's logos on the back in proportion to the acquired package.
- **Roller at the entrance to the event:** depending on the package contracted, the company logo will appear at the entrance to the event.
- **Creation of a subpage on the website:** Creation of a special section on the website talking about the sponsor.
- **Photocall:** Section where photos can be taken for social media during the event.
- **Talk at the opening:** Possibility of giving a brief welcome or presentation of the company at the opening ceremony.
- **Streaming during the talks:** These will be recorded and uploaded to the event's YT channel.

# OTHER SPONSORING OPPORTUNITIES

If you prefer to support our event with a donation, we are equally happy to receive monetary donations as well as donations of goods or food. We will provide you with a donation receipt and your company name will appear on our website. Some of the things we need are listed in the table below.

Drinks for participants  
Catering for breaks  
Catering for lunches and dinners  
Printing material  
Posters  
Prizes for participants  
Transport
